OUR SEGMENT

FEED & FOOD ADDITIVES

Dr Thomas Roth
Head of Chemicals, Cosmetics,
Consumer Products and
Feed & Food Additives

Our focus

Established in 2001, our Feed & Food Additives team is passionately dedicated to handling all regulatory challenges, leaving our customers free to concentrate on reaching out to their target markets.

We work devotedly to meet our customers' needs and produce the solutions best suited to their challenges.

You can choose whether you want our team to provide you with full-scale services including end-to-end (re)authorisation processes or to offer you our expertise in specific regulatory or scientific questions.

Your key benefits are our detailed knowledge of all relevant national and European regulations and our large industry network, which extends to associations and government organisations.

Our services

We offer a wide range of **technical and regulatory consulting services** designed to facilitate the authorisation process both for feed and food additives.

Specifically, we provide:

- Support on all relevant issues relating to **Regulations (EC) No 1333/2008, 234/2011 and 231/2012**, as well as to **Regulations (EC) No 1831/2003 and 429/2008**
- Assistance in **establishing and managing quality systems** (incl. HACCP)
- Establishment of **new application dossiers**
- Preparation of **optimal portfolios of expert statements** for your products
- **GLP-certified archiving** of GLP documentation and samples

Our customers have the convenience of working with **one point of contact**, which is supported by flexible project teams. Experienced specialists **develop customised solutions** to meet your specific challenges and, if needed, can take on the **complete management of task forces and consortiums**.

Our expertise

Our team can look back on a history of **successfully submitting more than 50 reauthorisation dossiers** for feed additives and has a distinguished record in supporting clients from the food industry. Customers profit from:

- Detailed knowledge of all relevant **national and European regulations**
- **Literature research** in all registration-relevant disciplines, which can often replace expensive studies
- Development and successful implementation of **waiving strategies**
- Established expertise in **GMO-related questions and challenges**
- Hands-on experience in dealing with **toxicity concerns** related to feed and food additives, including processing aids

We keep our knowledge up to date by **staying in close touch with scientific experts** from academic, commercial and regulatory fields. Our **extensive network** reaches far across the industry and beyond, benefiting from well-established ties to its most important associations and government organisations.

Who we are

SCC – Scientific Consulting Company – was founded in 1989 by Dr Friedbert Pistel. Since then, we have risen to become one of Europe's largest privately owned and independent scientific consulting companies, supporting global customers in the regulatory affairs business.

Our headquarters are located in Germany in the culturally rich Rhein-Nahe region, less than one hour's drive from Frankfurt Airport.

Our other offices in Berlin, established in 2014, and in Tokyo, opened in 2007, complement our headquarters in Bad Kreuznach and guarantee our international customers broader access to our services.

At SCC, you will find an open-minded, innovative entrepreneurial spirit backed by the expertise and commitment of a strong team. This winning combination has played a significant role in the rapid development of the company. It embodies values such as high quality, flexibility, reliability and versatility, coupled with vast knowledge and a wealth of experience. And that is what drives us forward.
