COMMISSION IMPLEMENTING REGULATION (EU) No 369/2012
of 27 April 2012
amending Implementing Regulation (EU) No 540/2011 as regards the conditions of approval of the active substances blood meal, calcium carbide, calcium carbonate, limestone, pepper and quartz sand

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Whereas:

(2) In accordance with Article 25a of Regulation (EC) No 2229/2004, the European Food Safety Authority, hereinafter 'the Authority', presented to the Commission the conclusions on the peer review for blood meal (6) on 26 September 2011 for calcium carbide (7) on 17 October 2011, for calcium carbonate (8) on 12 July 2011, for limestone (9) on 6 July 2011, for pepper dust extraction residue (10) on 4 July 2011, and for quartz sand (11) on 6 July 2011. The draft assessment reports and the conclusions of the Authority were reviewed by the Member States and the Commission within the Standing Committee on the Food Chain and Animal Health and finalised on 9 March 2012 in the format of the Commission review reports for blood meal, calcium carbide, calcium carbonate, limestone, pepper dust extraction residue and quartz sand. The notifiers submitted their comments, which have been carefully examined.

(3) In accordance with Article 12(2) of Regulation (EC) No 1107/2009 the Commission invited the notifiers to submit their comments on the conclusions of the Authority. Furthermore, in accordance with Article 13(1) of that Regulation, the Commission invited the notifiers to submit comments on the draft review reports for blood meal, calcium carbide, calcium carbonate, limestone, pepper dust extraction residue and quartz sand. The notifiers submitted their comments, which have been carefully examined.

(4) It is confirmed that the active substances blood meal, calcium carbide, calcium carbonate, limestone, pepper and quartz sand are to be deemed to have been approved under Regulation (EC) No 1107/2009.

(5) In accordance with Article 13(2) of Regulation (EC) No 1107/2009 in conjunction with Article 6 thereof and

in the light of current scientific and technical knowledge, it is necessary to amend the conditions of approval of blood meal, calcium carbide, calcium carbonate, limestone, pepper and quartz sand. It is, in particular, appropriate to require further confirmatory information as regards blood meal, calcium carbonate and pepper. At the same time certain technical adaptations should be made, in particular the name of the active substance ‘pepper’ should be replaced by ‘pepper dust extraction residue’.

(7) A reasonable period of time should be allowed before the application of this Regulation in order to allow Member States, notifiers and holders of authorisations for plant protection products to meet the requirements resulting from amendment to the conditions of the approval.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 27 April 2012.

For the Commission

The President

José Manuel BARROSO
Part A of the Annex to Implementing Regulation (EU) No 540/2011 is amended as follows:

(1) Row 222 on the active substance blood meal is replaced by the following:

<table>
<thead>
<tr>
<th>Common Name, Identification Numbers</th>
<th>IUPAC Name</th>
<th>Purity</th>
<th>Date of approval</th>
<th>Expiration of approval</th>
<th>Specific provisions</th>
</tr>
</thead>
<tbody>
<tr>
<td>Blood meal</td>
<td>Not available</td>
<td>≥ 990 g/Kg</td>
<td>1 September 2009</td>
<td>31 August 2019</td>
<td>PART A</td>
</tr>
<tr>
<td>CIPAC No: 909</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td>PART B</td>
</tr>
</tbody>
</table>

For the implementation of the uniform principles, as referred to in Article 29(6) of Regulation (EC) No 1107/2009, the conclusions of the amended review report on blood meal (SANCO/2604/2008) and in particular Appendices I and II thereof, as finalised in the Standing Committee on the Food Chain and Animal Health on 9 March 2012 shall be taken into account.

Conditions of use shall include, where appropriate, risk mitigation measures.

The notifier shall submit to the Member States, the Commission and the Authority, confirmatory information on the specification of the technical material, by 1 March 2013.

(2) Row 223 on the active substance calcium carbide is replaced by the following:

<table>
<thead>
<tr>
<th>Common Name, Identification Numbers</th>
<th>IUPAC Name</th>
<th>Purity</th>
<th>Date of approval</th>
<th>Expiration of approval</th>
<th>Specific provisions</th>
</tr>
</thead>
<tbody>
<tr>
<td>Calcium carbide</td>
<td>Calcium acetylde</td>
<td>≥ 765 g/kg</td>
<td>1 September 2009</td>
<td>31 August 2019</td>
<td>PART A</td>
</tr>
<tr>
<td>CAS No: 75-20-7</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td>Only uses as repellent may be authorised.</td>
</tr>
<tr>
<td>CIPAC No: 910</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td>PART B</td>
</tr>
</tbody>
</table>

For the implementation of the uniform principles, as referred to in Article 29(6) of Regulation (EC) No 1107/2009, the conclusions of the amended review report on calcium carbide (SANCO/2605/2008) and in particular Appendices I and II thereof, as finalised...
In the Standing Committee on the Food Chain and Animal Health on 9 March 2012 shall be taken into account.
Conditions of use shall include, where appropriate, risk mitigation measures.

(3) Row 224 on the active substance calcium carbonate is replaced by the following:

<table>
<thead>
<tr>
<th>Common Name, Identification Numbers</th>
<th>IUPAC Name</th>
<th>Purity</th>
<th>Date of approval</th>
<th>Expiration of approval</th>
<th>Specific provisions</th>
</tr>
</thead>
</table>
| Calcium carbonate                  | Calcium carbonate | ≥ 995 g/kg | 1 September 2009 | 31 August 2019 | PART A
| CAS No: 471-34-1                   |            |        |                  |                        | Only uses as repellent may be authorised. |
| CIPAC No: 843                      |            |        |                  |                        | PART B
|                                    |            |        |                  |                        | For the implementation of the uniform principles, as referred to in Article 29(6) of Regulation (EC) No 1107/2009, the conclusions of the amended review report on calcium carbonate (SANCO/2606/2008) and in particular Appendices I and II thereof, as finalised in the Standing Committee on the Food Chain and Animal Health on 9 March 2012 shall be taken into account. Conditions of use shall include, where appropriate, risk mitigation measures. The notifier shall submit confirmatory information as regards:
|                                    |            |        |                  |                        | — further data on the specification of the technical material,
|                                    |            |        |                  |                        | — analytical methods for the determination of calcium carbonate in the representative formulation and of the impurities in the technical material. These information shall be submitted to the Member States, the Commission and the Authority by 1 March 2013. |

(4) Row 237 on the active substance limestone is replaced by the following:

<table>
<thead>
<tr>
<th>Common Name, Identification Numbers</th>
<th>IUPAC Name</th>
<th>Purity</th>
<th>Date of approval</th>
<th>Expiration of approval</th>
<th>Specific provisions</th>
</tr>
</thead>
</table>
| Limestone                          | Calcium carbonate | ≥ 980 g/kg | 1 September 2009 | 31 August 2019 | PART A
| CAS No: 1317-65-3                   |            |        |                  |                        | Only uses as repellent may be authorised. |
| CIPAC No: 852                      |            |        |                  |                        | PART B
|                                    |            |        |                  |                        | For the implementation of the uniform principles, as referred to in Article 29(6) of Regulation (EC) No 1107/2009, the conclusions of the amended review report on
(5) Row 239 on the active substance pepper is replaced by the following:

<table>
<thead>
<tr>
<th>Common Name, Identification Numbers</th>
<th>IUPAC Name</th>
<th>Purity</th>
<th>Date of approval</th>
<th>Expiration of approval</th>
<th>Specific provisions</th>
</tr>
</thead>
</table>
| Pepper dust extraction residue (PDER) | Steam distilled and solvent extracted Black pepper – Piper nigrum | It is a complex mixture of chemical substances, the component piperine as marker should be minimum 4% | 1 September 2009 | 31 August 2019 | PART A
Only uses as repellent may be authorised.
PART B
In assessing applications to authorise plant protection products containing pepper dust extraction residue (PDER) for uses other than in home garden area, Member States shall pay particular attention to the criteria in Article 4(3) of Regulation (EC) No 1107/2009, and shall ensure that any necessary data and information is provided before such an authorization is granted.

For the implementation of the uniform principles, as referred to in Article 29(6) of Regulation (EC) No 1107/2009, the conclusions of the amended review report on pepper (SANCO/2620/2008) and in particular Appendices I and II thereof, as finalised in the Standing Committee on the Food Chain and Animal Health on 9 March 2012 shall be taken into account.

Conditions of use shall include, where appropriate, risk mitigation measures.1

The notifier shall submit to the Member States, the Commission and the Authority, confirmatory information on the specification of the technical material, by 1 March 2013.1

(6) Row 247 on the active substance quartz sand is replaced by the following:

<table>
<thead>
<tr>
<th>Common Name, Identification Numbers</th>
<th>IUPAC Name</th>
<th>Purity</th>
<th>Date of approval</th>
<th>Expiration of approval</th>
<th>Specific provisions</th>
</tr>
</thead>
</table>
| Quartz sand | Quartz, Silicon dioxide | ≥ 915 g/kg Maximum 0.1 % of particles of Crystalline Silica (with diameter below 50 um.) | 1 September 2009 | 31 August 2019 | PART A
Only uses as repellent may be authorised.
PART B
In assessing applications to authorise plant protection products containing quartz sand for uses other than on trees in forestry, Member States shall pay particular attention to the
<table>
<thead>
<tr>
<th>Common Name, Identification Numbers</th>
<th>IUPAC Name</th>
<th>Purity</th>
<th>Date of approval</th>
<th>Expiration of approval</th>
<th>Specific provisions</th>
</tr>
</thead>
</table>

criteria in Article 4(3) of Regulation (EC) No 1107/2009, and shall ensure that any necessary data and information is provided before such an authorization is granted.

For the implementation of the uniform principles of Annex VI, the conclusions of the review report on quartz sand (SANCO/2628/2008) and in particular Appendices I and II thereof, as finalised in the Standing Committee on the Food Chain and Animal Health shall be taken into account.

Conditions of use shall include, where appropriate, risk mitigation measures.
