SCC 
WE CARE FOR YOUR SUCCESS

PRIVATELY OWNED, INDEPENDENT AND NEUTRAL

SCC is a privately owned, independent and neutral consulting company with an extensive global network but no commercial ties to contract research organisations. Since 1989, we have been supporting our customers with tailored solutions for their scientific and regulatory needs within and outside the EU. Our expertise extends over a broad range of areas:

- Agrochemicals & biorationals, incl. fertilisers and biostimulants
- Biocides
- Chemicals
- Medical devices
- Cosmetics and consumer products
- Pharmaceuticals
- Food contact materials
- Feed additives
- International MRL setting
- Genetically modified/edited crop (Japan)
- Legal and consortia management (SCC Legal)
- GLP-Archiving

The backbone of our company and the key to our success is our scientific expertise bundled in the Regulatory Science business unit.

Experts from all regulatory relevant disciplines, such as chemists, physicists, food chemists, biologists, geo-ecologists, toxicologists, ecotoxicologists, environmental fate specialists and agronomists are united under one roof.

This access to a wide spectrum of expert knowledge ensures that our clients can take advantage of a very competent and highly efficient service.

OUR PHILOSOPHY

Respect, commitment and responsibility

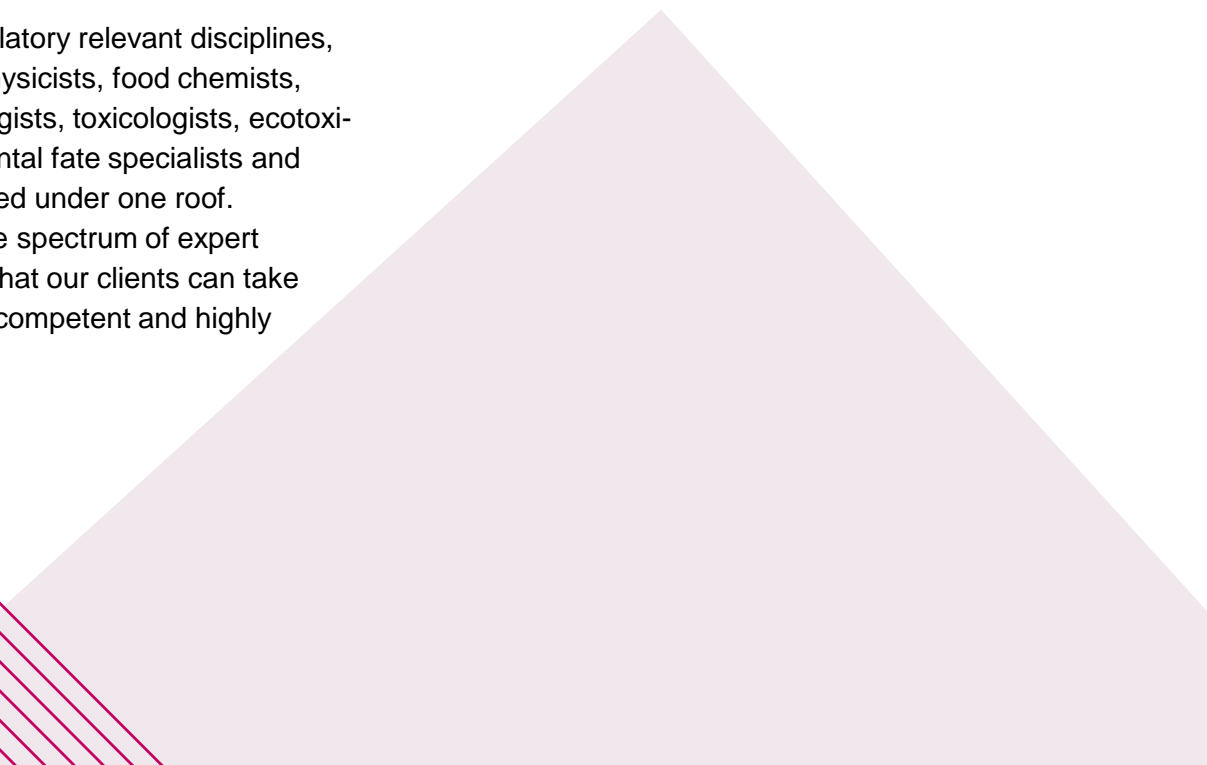

Looking back on more than three decades of SCC history, we truly believe that the key to our success is a genuine care for the success of our customers, our partners and our employees.

We are dedicated to excelling in the regulatory and scientific expertise we offer. We follow a business philosophy that blends scientific precision with passionate customer dedication.

Working hand in hand with the national, European and international authorities, we are committed to ensuring the use of safer industrial products for environmental sustainability and a better quality of life.

Eye-to-eye partnership

From the first contact, our experts at SCC create a dedicated in-house project team to meet your needs and work with you in an equal partnership towards your goals. We guarantee that our work is always conducted in a to-the-point and cost-effective manner.

Offering in-depth cutting-edge expertise

We offer extensive expertise that is always up to date. This is our major asset and the reason behind our sustained success. We are meticulous in hiring top senior specialists and young, ambitious and highly motivated professionals. We continuously invest in education and individual training for our employees to guarantee the excellent quality of our services.

OUR EXPERTISE

Since 1989, our **agrochemicals and biorationals** experts have successfully defended >90 chemical and biological active substances, within and outside Europe. They have obtained more than 500 national registrations for biological and chemical products. In the field of biorationals, we look back on more than two decades of experience, by offering skilled support for the registration of biostimulants and fertilisers.

On behalf of the **chemical industry**, we have successfully filed more than 700 lead dossiers for phase-in and non-phase-in substances, >50 PPORD notifications and >150 inquiry dossiers under EU REACH. We provide strategic expert advice, registration services and lifecycle support for chemicals at European and international level.

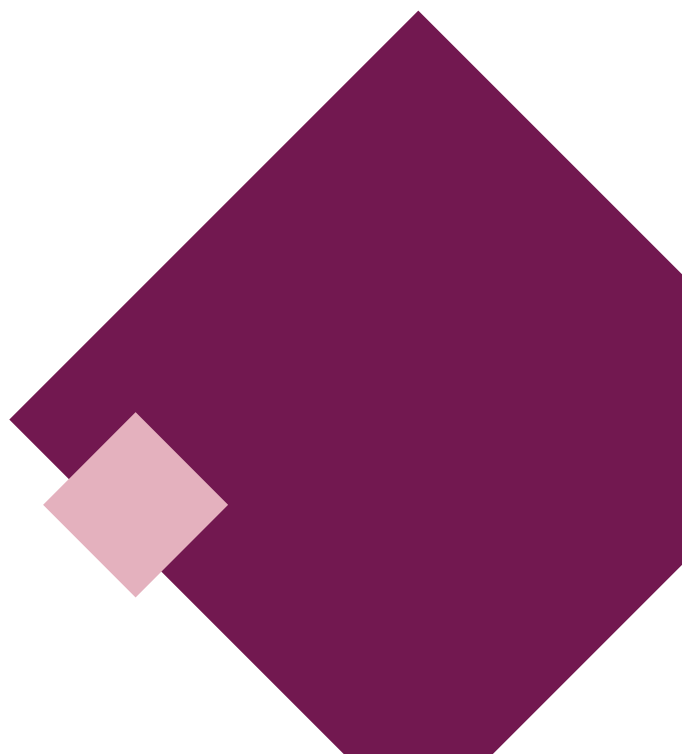

Our in-depth expertise in the field of **biocides** has been the base for successful dossier submissions and defence of more than 25 biocidal active substances in nearly all product types (>70 active substance dossiers), renewal dossiers and numerous dossiers for biocidal products and product families.

SCC successfully managed more than 50 re-authorisations for **feed additives** and have been providing expert support to **the cosmetic industry** for more than 2 decades. During that time, we have secured official approval for over 60 safety dossiers, submitted for a wide variety of challenging cosmetic ingredients.

In recent years, we have built up extensive expertise broadening and enhancing our services in the field of **medical devices** and **pharmaceuticals**.

For European and **international registration services**, we rely on our corporate offices as well as our international partner network to offer our customers in-depth and up-to-date expertise in their target markets.

The regulatory environment across industries and regions is currently undergoing profound changes, with some of them having far-reaching consequences for the future of the global economy and environment. We see it as our responsibility to closely monitor all current legislative developments and future trends helping our clients to stay on top of the things and being prepared for all possible challenges of today and tomorrow.

OUR OFFICES

- **SCC headquarters, Bad Kreuznach, Germany**
- **SCC Office Berlin**
- **SCC Japan**
- **SCC UK**

All our teams in different locations consist of highly educated and team-oriented experts, mostly academics and PhDs. More than 160 professionals are employed in Germany. Our offices with their expert teams complement the headquarters and guarantee our international customers broader access to our services.

Over three decades, we have been acting on the side of our customers providing them with expert guidance and helping them to master their regulatory challenges in the EU, Asian-Pacific, Eurasian and North and South American markets.

In this time, we have established an extensive network of partners and associates in various regions to guarantee our customers access to top-qualified and first-hand expertise in their target markets.
