DISCOVER
THE WORLD OF SCC
We are privately owned, independent and neutral – with an extensive global network, but no commercial ties to contract research organisations.

If studies are necessary, we can recommend labs or CROs ideally suited for your specific purpose. Studies are to the point and conducted cost-effectively.

For more than 25 years, our success rate has been outstanding. We have never missed a deadline, no matter how complex the regulatory issue.

We experience every project as a true partnership: right from the start, we ensure we fully understand your needs.

We cover all regulatory relevant disciplines, e.g. chemistry, food chemistry and safety, analytical chemistry, agronomy, biology, toxicology, workplace safety, geo-ecology and environmental fate, ecology and ecotoxicology, scientific modelling, regulatory and scientific networks.

“Giving up is no part of our vocabulary. Multidisciplinarity is.”

Dr. Friedbert Pistel
President

From the first contact onwards, we create a dedicated in-house team to meet your needs. We see ourselves as partners, working together towards the same goal.

»When it gets difficult, you go to SCC«: We are the experts for regulatory challenges – large and small.
OUR EXPERTISE

INTERNATIONAL SUCCESS
- in Europe, China, Japan, Korea, the Philippines, Taiwan, Australia, Canada and the US

SEVERAL HUNDRED REGISTRATIONS

- in Europe, China, Japan, Korea, the Philippines, Taiwan, Australia, Canada and the US

LONG-STANDING CUSTOMER RELATIONS:
- some for more than 20 years

ORGANISATION OF SYMPOSIA for regulatory experts, e.g. in JAPAN

FIRST COMPANY IN GERMANY to offer GLP contract archives
OUR SERVICES

Data compliance reviews

Task force and consortia management

Testing strategies and study monitoring

Only Representative Service (REACH)

Alternative testing strategies and (Q)SAR

Scientific waivers, read-across and group approaches

Scientific risk assessments and modelling

Scientific opinions and expert work

Electronic and conventional dossier preparation and submission

Dossier defence at national and international level

GLP and non-GLP regulatory archiving concepts

Maintenance of product registrations

Electronic Document and Dossier Management System (EDDMS)

Liaison offices in Japan

Event and meeting management
OUR BUSINESS UNITS

- Agrochemicals
- Integrated Crop Management Biopesticides
- Biopesticides
- Chemicals/REACH
- Cosmetics
- GLP & Archiving
- Biocides
- Agrochemicals
- Chemicals/REACH
- Biocides
- Regulatory Science
- Pre-Clinical Pharma
- Veterinary Medicine
- Consumer Products
- Feed Additives
- Food Additives
OUR TEAM

SCC – Scientific Consulting Company – was founded in 1989 by Dr. Friedbert Pistel. During our 25-year history we have become one of Europe’s largest privately owned and independent consulting companies, focusing on the regulatory needs of global customers.

SCC is headquartered in Germany in the culturally attractive Rhein-Nahe region and located in a modern building complex. The Liaison Office Japan was established in 2007 and the Office Berlin in 2014.
